

I am new to XM radio. I enjoy the programming offered. Please do not censor and limit XM's right to broadcast local Instant Traffic & Weather. Please reject the NAB's petition 04-160. I believe in freedom of expression and will be dissapointed if the FCC supports censorhsip. I will infor colleagues, friends, and family about the FCC's alliance with NAB's and how this organization looks at its own interests without taking others into consideration.
